3. Your sponsorship 2024

LCBI is a European program from the French Non-Profit BBKA (Association pour le développement du Bâtiment Bas Carbone).

The BBKA Association is recognized as being of public interest and can receive donations that are 60% tax-deductible against corporate tax or income tax, for French companies.

As a result, for French companies, your sponsorship to LCBI is 60% tax-deductible. After your donation, you will receive a tax rescript allowing you to follow the necessary procedures.

4. Your payment

Payment by bank transfer to the BBKA Association account

Receive our bank details upon request

The sponsorship fees and donation are not subject to VAT.

To submit your membership application, please send this completed form along with by email to lcbi@batimentbascarbone.org. We will come back to you with next steps.

Benefits with your 2025 Sponsorship:

- Contribution to a strategic initiative to decarbonize European real estate
- Right to use the "LCBI 2025 Sponsor" to showcase your commitment to a low-carbon real estate transition, authority on low carbon topics and support to LCBI;
- Your name featured on the LCBI website and most promotional offline & online materials, allowing increased European visibility;
- Participation in collaborative project groups as a contributor or leader, and benefit from counterpart expertise;
- Invitations to conferences/events organized by LCBI & the BBKA Association (exclusive previews of LCBI Commission work, expert meetings/networking);
- Preferential conditions for Sibca (Low-Carbon Real Estate Show), co-organized by BBKA and France Conventions in October 2025;

Your commitments:

- **Promotion of LCBI Goals:** Actively promote the goals and objectives of the LCBI through their marketing channels, events, and partnerships, helping to raise awareness and encourage wider adoption of low-carbon building practices.
- **Knowledge Sharing and Collaboration:** Optionally participate in LCBI working groups, commissions, or advisory boards, sharing expertise and best practices in low-carbon building with other members and stakeholders.
